

50-286

JUN 27 1960

NOTE TO DR. MORRIS

We have received another letter from the atomic safety and licensing board in Indian Point 3 inquiring, this time, whether the staff wants to change its value for the spray removal constant for inorganic iodine. The board requests a response on or before July 1.

A copy of the letter has been given to Vassallo (in Muller's absence). Joe Murphy and Pat Howe have also seen the letter.

In light of the extremely tight timing from Con Ed's point of view, I wanted to be sure you were aware of this matter.
