R. S. Boyd, Assistant Director for Reactor Projects

CONSOLIDATED EDISON COMPANY OF NEW YORK, INC., INDIAN POINT NUCLEAR
GENERATING UNIT NO. 3

This morning (December 10, 1968), I discussed with Dudley Thompson, Ralph Birkel's memo of November 26, 1968, to Joe Murphy. This memo indicated that the information submitted by Con Ed as Supplement No. 5 on the Indian Point 3 organization, training, and operating plans is generally inadequate. Dudley stated that the objective of the RO review of an applicant's operating organization and plans during the Construction Permit review is to inform the applicant as early as possible of the information that will be requested when the project is reviewed for an operating license. On this basis, RO does not intend to request Con Ed to submit additional information in writing; however, he would like to discuss this information at our next meeting with Con Ed (December 12, 1968).
