CONSOLIDATED EDISON CO. OF N. Y., INDIAN POINT #3,  
Docket No. 50-286

Pursuant to an oral request (9/16/68) from RPB #1 (J. Murphy), the subject PSAR was reviewed regarding operational aspects contained within the application. It was revealed that both conduct of operations and initial tests and operation have been completely omitted from the application.

Based upon the above it has been concluded that the PSAR is incomplete and until the required information is submitted by the applicant our review can not be completed. RPB #1 has been advised.

It should be noted that the current RP review schedule anticipates preparation of the staff report to the ACRS in November with an ACRS review in December.
