FACILITY LICENSE APPLICATION FILED BY CONSOLIDATED EDISON COMPANY OF
NEW YORK, INC., INDIAN POINT STATION UNIT NO. 3, DOCKET NO. 50-286

I am forwarding the General Information portion of an application filed by Consolidated Edison Company of New York, Inc., for the proposed construction and operation of a third pressurized water nuclear reactor, Indian Point Station Unit No. 3, at the company's site in Westchester County, New York. The proposed reactor is designed for initial operation at approximately 3025 Mwt with a net electrical output of approximately 965 megawatts.

Please review the application and advise what additional information you will require in order to complete your review of the applicant's financial qualifications to engage in the proposed construction of this reactor.
