Attn: Mrs. Catherine Parrish

Dear Madam:

In accordance with our telephone conversation of February 14, 1973, we are herewith returning "Amendment No. 24 to the Application for Construction Permit and Operating License for the Kewaunee Nuclear Power Plant," dated January 24, 1973.

We believe that the amendment was inadvertently sent to us in place of "Amendment No. 24 to Application/SAR, dated January 19, 1973," which is referred to in the accompanying AEC form letter of transmittal dated February 7, 1973, subject: Consolidated Edison Company of New York, Inc., Indian Point Nuclear Generating Unit No. 3. Apropos, we would like to note that we do receive for our information and records data pertaining to the Indian Point units of Consolidated Edison of New York.

"Amendment No. 25 to Application/SAR, dated January 31, 1973," which is also noted in the AEC form letter of transmittal as having been sent to us, was not in the packet we received.

We would appreciate your help in clarifying the matter.

We also received the following, which we have retained and will handle in accordance with procedures detailed in the instruction sheet mentioned below.

- a. Loose leaf binder titled: "U. S. Atomic Energy Commission, Docket No. 50-286, Exhibit B-12, Volume 7, Consolidated Edison Company of New York, Inc., Indian Point Nuclear Generating Unit, Final Facility Safety and Analysis Report, Plant Design Description and Safety Analysis."
- b. Instruction sheet concerning revisions, Supplement 11, Indian Point No. 3.
- c. Revision sheets, Supplement 11, Indian Point No. 3, January 1973.

May we thank you in advance for your kindness in helping clarify the matter.

Sincerely yours,

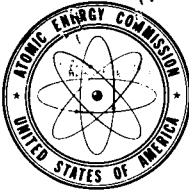

Horace H. Brown
