**Subject: Revised Request for License Amendment**

With regards to our October 28, 2009 amendment request for our Nuclear Regulatory Commission License No. 07-16199-02 and No. 07-16199-03, we are revising that request by withdrawing Günsel Acikgoz, M.D. name for consideration as Radiation Safety Officer at this time.

We request Gerald Mandell, M.D be approved as Radiation Safety Officer. Dr. Mandell was previously approved and served as the Radiation Safety Officer on our licenses in the past. Most recently, he was approved and served as the A. I. duPont Hospital for Children's Radiation Safety Officer from 2007 to June of 2009. Therefore, his experience as Radiation Safety Officer is within the 7-year experience limit. Dr. Mandell is currently an Authorized User on the Arizona Radiation Regulatory Agency License No. 2554845. Günsel Acikgoz, M.D., who will be operating as the Assistant Radiation Safety Officer, will be assisting Dr. Mandell. Dr. Acikgoz is already an Authorized User on License No. 07-16199-02. Her CV and Board Certification are on file. As per our license condition for License No. 07-16199-03, we will ensure that Dr. Acikgoz receives training as specified in NUREG 1556, Volume 5. Radiation Safety instruction will be conducted by either the Radiation Safety Officer, or the Assistant Administrative Director of Clinical Laboratories, Mr. Francis D. Fattori. Mr. Fattori is an authorized user on License 07-16199-03. The consultant medical health physicist will also provide continued support and direction.

Please amend our NRC licenses No. 07-16199-02 and 07-16199-03 by re-approving Gerald Mandell, M.D. as Radiation Safety Officer. This revised amendment request was approved by our Radiation Safety Committee on January 25, 2010.

If additional information or clarification is necessary, please contact our consultant health physicist, Mary E. Moore at (267) 294-8897.

Sincerely,

Thomas P. Ferry
