Mr. John T. Conway  
 Executive Director  
 Joint Committee on Atomic Energy  
 Congress of the United States

Dear Mr. Conway:

Consolidated Edison Company of New York, Inc., has filed an application for a construction permit and facility license to authorize construction and operation of a third pressurized water nuclear reactor, designated as Indian Point Station Unit No. 3, on the applicant's site located in Westchester County, New York.

The proposed reactor is designed for initial operation at approximately 965 megawatts net electrical, derived from a thermal output of approximately 3,025 megawatts. The applicant estimates completion of construction of the facility by June 1971.

A copy of a Federal Register notice regarding this application is enclosed.

Sincerely yours,

(signed) Harold L. Price
