SUBJECT: DELAWARE OUTPATIENT CENTER FOR SURGERY, AMENDMENT NOT
NEEDED, CONTROL NO. 144330

Dear Dr. Raben:

We are in receipt of the letter dated December 3, 2009, signed by Cherrie Records, RN, requesting an amendment to the above license to authorize the cessation of the use of whole body and finger dosimetry. Please be advised that an amendment to the license is not necessary. Based upon the evidence you submitted, and the telephone conversation of January 25, 2010, with the undersigned describing your procedural controls to prevent manual contact with iodine-125 seeds, NRC has no objections to your proposed action. If you have any further questions regarding this matter, please contact the undersigned at (610)337-5102. Thank you.

Sincerely,

Original signed by Richard McKinley
