Chairman, Advisory Committee
on Reactor Safeguards
U.S. Atomic Energy Commission
Washington, D.C. 20545

Subject: **CONSOLIDATED EDISON COMPANY OF NEW YORK, INC.**
INDIAN POINT NUCLEAR GENERATING UNIT NO. 3

Sixteen copies of the following Category A documents concerning the subject facility are transmitted for review by the Committee:

Letter from Consolidated Edison, dated August 17, 1973, transmitting the proprietary and nonproprietary versions of the report "Fuel Densification - Indian Point Nuclear Generating Unit No. 3," dated July 1973. Because of the limited number of copies we received, we are forwarding 16 copies of the proprietary version and 10 copies of the nonproprietary version of this report for the Committee's use. Please note that the transmittal letter states that the proprietary version of the report contains Westinghouse Electric Corporation proprietary material and requests that the proprietary version be withheld from public disclosure pursuant to the provisions of Sections 2.790 and 9.5 of the Commission's regulations.

Letter from Consolidated Edison, dated September 7, 1973, which provides supplemental information to their April 2, 1973, letter concerning design of instrumentation, control, and electrical systems.
