

March 12, 2010

MEMORANDUM TO: Michael J. Case, Director  
Division of Engineering  
Office of Nuclear Regulatory Research

FROM: Daniel H. Dorman, Director **/RA/**  
Division of Fuel Cycle Safety  
and Safeguards  
Office of Nuclear Material Safety  
and Safeguards

SUBJECT: TRANSMITTAL OF DRAFT REGULATORY GUIDE DG-3030

The enclosed draft Regulatory Guide DG-3030, "Nuclear Criticality Safety Standards for Fuels and Material Facilities," is proposed Revision 2 to Regulatory Guide 3.71. The guide is ready for the Division of Engineering Regulatory Guide Development Branch to forward to the Advisory Committee on Reactor Safeguards for review and to obtain the necessary approvals for publication to solicit public comments.

My staff in the Technical Support Branch developed the enclosed DG-3030 (enclosure 1). The proposed draft regulatory guide has undergone technical editing, and the appropriate changes have been incorporated. A redline/strikeout version (enclosure 2) is also enclosed to assist reviewers in identifying the changes from the previous version of the guide.

Enclosures:

1. Draft Regulatory Guide DG-3030
2. Redline/strikeout version of DG-3030
