Rob,

Attached please find the subject draft request for additional information (RAI). You have until January 22, 2010, to review the RAI and decide whether or not you need a clarification phone call on this RAI. After the phone call or on January 22, 2010, the final RAI will be issued to you for response. You will then have 30 days to provide either a complete and technically correct response to the RAI or a schedule for providing such response, if the RAI can not be answered during the assigned 30 days period.

Thanks.

Calvert Cliffs Unit 3
UniStar
Docket No. 52-016

SRP Section: 17.5 - Quality Assurance Program Description - Design Certification, Early Site Permit
and New License Applicants
Application Section: 17.5

QUESTIONS for Quality and Vendor Branch 1 (AP1000/EPR Projects) (CQVP)

17.5-6

UniStar Nuclear Energy responded to RAI 120 CQVP 2262, Quality Assurance Program Description (QAPD), by letter dated July 29, 2009. On August 6, 2009, a telephone conference call was held between the NRC and UniStar Nuclear Energy to discuss UniStar's responses. Question 17.5-4 stated that the UniStar Nuclear Topical Report No. UN-TR-06-001-A, Revision 1, "Quality Assurance Program Description," should commit to Regulatory Guides (RG) 1.8, Revision 3, RG 1.28, Revision 3, and RG 1.33, Revision 2, or provide justification of any proposed alternatives. It further stated that UN-TR-06-001-A should be revised to clarify that changes to regulatory commitments described in the QAPD or incorporated by reference are subject to the change process defined by 10 CFR 50.54(a).

During the August 6, 2009 conference call, the NRC and UniStar discussed UniStar's response to question 17.5-4 that "UniStar Nuclear Energy will implement and comply with the Regulatory Guides in accordance with NQA-1-1994."

NQA-1-1994 by itself does not meet each of the regulatory positions in RG 1.33. Please address each of the regulatory positions in RG 1.33 in a revised QAPD topical report.
