Docket No. 50-286

Mr. Donald H. Pack, Acting Director  
Air Resources Laboratory  
Environmental Science Services Administration  
8060 - 13th Street  
Silver Spring, Maryland 20910

Dear Mr. Pack:

On April 25, 1967, Consolidated Edison Company of New York, Inc. filed an application with the Commission for a license to construct and operate Indian Point Nuclear Generating Station Unit 3. In the course of our review, it has been determined that the comments of the Air Resources Laboratory, Environmental Science Services Administration, are desirable with respect to any new information on the meteorological aspects of the proposed reactor location which might be applicable to Unit 3. A copy of the Environmental Science Services Administration's comments for the Indian Point Nuclear Generating Station Unit 2 is enclosed.

The application for Unit 3 (copy enclosed) which includes Volumes I and II and Exhibit B, Volume II Part B, contains essentially the same information as the application submitted for Unit 2.

In view of the scheduling of hearing in this case, your prompt review and comments will be appreciated.

Sincerely yours,

Original signed by  
Roger S. Boyd

Roger S. Boyd, Assistant Director  
for Reactor Projects  
Division of Reactor Licensing
