Mr. Robert Schneider
Office of Radiohydrology
Water Resources Division
U. S. Geological Survey
Washington, D. C. 20242

Dear Mr. Schneider:

On April 25, 1967, Consolidated Edison Company of New York, Inc., filed an application with the Commission for a license to construct and operate the Indian Point Nuclear Generating Station Unit No. 3. In the course of our review, it has been determined that the comments of the Geological Survey are desirable with respect to any new information on the hydrological features of the proposed reactor location which might be applicable to Unit No. 3. A copy of the Geological Survey's comments for the Indian Point Nuclear Generating Station Unit No. 2 is enclosed for your information and use.

The application which includes Exhibit B, Volumes I and II and Exhibit B, Part B, Volume II, and First Supplement (Amendment No. 1) thereto is enclosed.

In view of the scheduling of hearing in this case, your prompt review and comments will be appreciated.

Sincerely,

Original signed by:
Roger S. Boyd

Roger S. Boyd, Assistant Director
for Reactor Projects
Division of Reactor Licensing

Enclosures:

1. Comments of USGS for Indian Point 2
2. PSAR for Indian Point 3
3. Amendment No. 1 to PSAR

cc: Mr. Howard Waldron, USGS
Mr. Dwight Lemmon, USGS
