Secretary  
U.S. Atomic Energy Commission  
Washington, D.C. 20545

Dear Sir:

This is a request to make a limited appearance before the Atomic Safety and Licensing Board at its hearing on March 25, 1969 on the application of Consolidated Edison Co. for a provisional construction permit for its 3025 megawatt reactor at the Buchanan, N.Y. site.

As we are situated within 50 miles and on contiguous waters of this site, the Lloyd Harbor Study Group has an interest in, and would like to make a short statement on its findings relative to this construction.

Sincerely yours,

*Ann G Carl*  
Mrs. William Carl
