In the Matter of Consolidated Edison Company of New York, Inc.
(Indian Point Nuclear Generating Station, Unit No. 3)
Docket No. 50-286

Gentlemen:

During the prehearing conference on November 27, 1973, the Board requested that the Applicant advise it within ten days whether the Applicant would object to having the evidentiary hearing in Bethesda, rather than in the vicinity of the plant (Tr. 130-31).

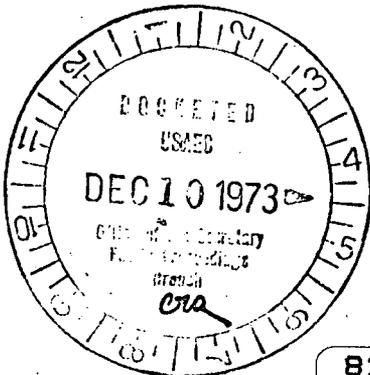

It appears that the convenience of the Board and the Regulatory Staff of the Commission would be served by holding the hearings in Bethesda, and we understand that the various intervenors are willing to have them there. Applicant therefore will not object to an order convening the hearings in Bethesda.

Very truly yours,

LEBOEUF, LAMB, LEIBY & MACRAE
