In the Matter of Consolidated Edison Company of New York, Inc.
(Indian Point Nuclear Generating Station, Unit No. 3)
Docket No. 50-286

Gentlemen:

On May 17, 1973, the applicant filed a "Motion to Consolidate Intervenor
HRA and SOS." In subject proceeding. At the prehearing conference held
at Croton-on-Hudson on May 21, 1973, the subject of the motion was dis-
cussed, and it is the understanding of the regulatory staff that, as a
result of a general agreement between the parties, the motion has now
become academic (Tr. 49-51). In view thereof, the regulatory staff will
not respond to the motion. In the event, however, that the agreement
cited above does not become effective, the regulatory staff reserves the
right to respond to any motion to consolidate.

Sincerely,

15/

Myron Karman
