In re: Consolidated Edison Company
of New York, Inc.
(Indian Point Unit No. 3)
AEC Docket 50-286

Attorneys for Intervenor Hudson River Fishermen's
Association and Save Our Stripers yesterday received
the Memorandum and Order of the Appeal Board in this
proceeding dated March 26, 1974, ALAB-186. Intervenor
request ten days from the receipt of the memorandum and
order to brief the question certified by the Appeal Board

8111020379 740329
PDR ADDCK 05000286
G PDR

to the Commission.

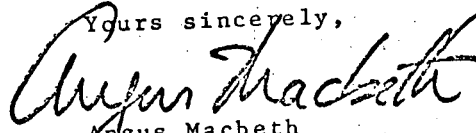

The issue raised by the certification was first presented to the Atomic Safety and Licensing Board in papers filed by Applicant on March 7, 1974. By letter dated February 7, 1974, the ASLB provided the other parties with 20 days after receipt of Applicant's papers in which to respond to Applicant's position. On March 13, 1975, attorneys for HRFA and SOS wrote the ASLB stating that they intended to file a response. On March 20, 1974, before the expiration of the 20 day period and before the receipt of responses from either the Intervenor or the Staff, the ASLB certified the central issue to the Appeal Board. On March 26, 1974, before the receipt of any papers from the Intervenor or the Staff and still before the expiration of the 20 day period, the Appeal Board certified what it perceived to be the major issue of policy to the Commission.

The issue presented to the Commission is a new and important one and in light of the fact that it has been addressed three times in differing ways by the Applicant, the ASLB and the Appeal Board, Intervenor request ten days in order to have at least one opportunity to address the questions presented.

Respectfully submitted,

Angus Macbeth
Attorney for Hudson River
Fishermen's Association and
Save Our Strippers

Yours sincerely,

Angus Macbeth
