Indian Point Station Unit No. 3
Docket No. 50-286

Dear Dr. Oestmann:

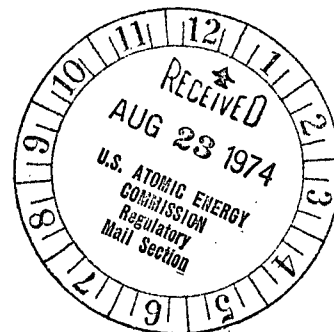

In accordance with the discussions held at Oak Ridge National Laboratory on July 29 and 30, 1974, I am enclosing a copy of Quirk, Lawler & Matusky's summary table of "f" factors calculated from data collected during 1973 at river transects and in the intake and discharge canals of the Lovett, Bowline, Danskammen and Roseton stations. It would be appreciated if you could transmit this material to Dr. Webb van Winkle at Oak Ridge.

Very truly yours,

Eugene R. Fidell
