Docket No. 50-286
OL No. DPR-64

(Determination of
Preferred Alternative
Closed-Cycle Cooling
System)

ANSWER OF HUDSON RIVER FISHERMEN'S
ASSOCIATION AND SAVE OUR STRIPERS
TO NOTICE OF HEARING

Pursuant to Notice of Hearing, issued October 12, 1976, respecting a license amendment proposed by Consolidated Edison Company of New York, Inc. (Con Edison) which would designate a closed-cycle natural draft, wet cooling tower system as the preferred alternative cooling system at Indian Point Unit No. 3, and the provisions of 10 C.F.R. Section 2.705 of the Commission's Rules of Practice, the Hudson River Fishermen's Association ("HRFA") and Save Our Stripers ("SOS") hereby submit the following answer.

Nature of HRFA's and SOS' Position

HRFA and SOS do not oppose the designation of a natural draft, wet cooling tower as the preferred closed-cycle cooling system for Indian Point 3. The basis for this position is set forth in HRFA's and SOS' petition to intervene filed on April 29, 1976. See Petition at p. 5.

PDR ADOCK 05000286
G PDR

HRFA and SOS' Position with Respect to Issues
Raised by Proposed Amendment

HRFA and SOS take the position, based on the evidence contained in the Final Environmental Statements relating to operation of Indian Point Units Nos. 2 and 3, the Final Environmental Statement related to Selection of the Preferred Closed-Cycle Cooling System at Indian Point Unit No. 2, and Con Edison's Report on Economic and Environmental Impacts of Alternative Closed-Cycle Cooling Systems, dated January 1, 1976, that they do not controvert the issues raised by the proposed amendment. However, in the event that new evidence or data is presented by the NRC staff or any other party, HRFA and SOS reserve the right to modify their position.

HRFA and SOS' Intent to Appear and Present Evidence

HRFA and SOS, by their counsel, intend to appear and participate as full parties in any hearing which may be held. HRFA and SOS also reserve the right to present evidence at such a hearing.

Respectfully submitted,

Sarah Chasis

Sarah Chasis
