OF NEW YORK, INC. and) Facility Operating
POWER AUTHORITY OF THE) License No. DPR-64
STATE OF NEW YORK)
(Indian Point Station,)
Unit No. 3))

NOTICE OF EXTENSION OF
INTERIM OPERATION PERIOD

Pursuant to paragraph 2.E(1)(e) of Facility Operating License No. DPR-64, and paragraph 7(c) of the Stipulation in the above-captioned proceeding dated January 13, 1975, notice is hereby given that Indian Point Unit No. 3 did not operate at at least 40% of rated power for 45 or more full days (8:00 a.m. to 7:59 a.m.) during the period from May 15 to July 31, 1976. Accordingly, the September 15 date, as that term is used in the License, is extended for one year to September 15, 1982.

Respectfully submitted,

LeBOEUF, LAMB, LEIBY & MacRAE

Re: Indian Point Station, Units 2 and 3,
Dkt. Nos. 50-247 and 50-286

Dear Mr. Knighton:

In accordance with paragraph 2.E(4) of Facility Operating License No. DPR-26 and paragraph 2.E(1)(f) of Facility Operating License No. DPR-64, we hereby submit an affidavit executed on July 27, 1976 by Mr. John R. Jannarone, a Vice President of Consolidated Edison Company of New York, Inc. and six (6) copies of the Texas Instruments report entitled "Fisheries Survey of the Hudson River, March-December 1973, Volume IV, Revised Edition" dated June 1976.

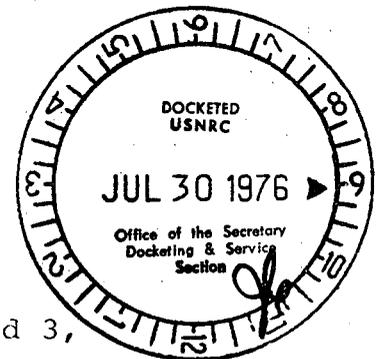

By copy hereof, one copy of the report and the original and twenty (20) copies of Mr. Jannarone's affidavit are being filed with the Secretary of the Commission.

Very truly yours,

Leboeuf, Lamb, Leiby & Macrae

KLAUS JACOB, being duly sworn, deposes and says:

1. That I have been employed by the New York State Geological Survey as a seismologist, and that the curriculum vitae attached hereto is made a part hereof by this reference.

2. That I have thoroughly reviewed the testimonial report of the panel, consisting of Dr. James F. Davis, Dr. Paul W. Pomeroy, Dr. Robert H. Fakundiny, and Dr. Leo M. Hall, and which testimonial report was filed on June 18, 1976 with the United States Nuclear Regulatory Commission, on behalf of the New York State Atomic Energy Council, and which testimonial report dealt with Issue III (Seismic) before the Atomic Safety and Licensing Appeal Board in the above entitled case.

3. That I hereby adopt such testimonial report as my own testimony, and affirm that it is true and correct to the best of my knowledge and belief.

4. That I make this affidavit in order to present this testimony to the Board, and to be cross-examined, if necessary, in the place of Dr. Paul W. Pomeroy, who has recently resigned from the New York State Geological Survey, after said testimonial report had been filed.

of Columbia University, Palisades, New York 10964
Telephone: 914-359-2900

Home Address: 550 Riverside Drive, Apt. 9F
New York, New York 10027
Telephone: 212-655-4440

Education: Ph.D., in Geophysics, Frankfurt University, 1968

Dissertation: The dynamical process in deep focus earthquakes.

Diploma in Geophysics, University of Mainz, 1963

Thesis: Locating near-surface structures by short-distance seismic refraction profiling.

Pre-diploma in Mathematics and Physics, Technical University of Darmstadt, 1960.

Other areas of concentration: geology, electrical and mechanical engineering, digital data processing.

Scientific Research: Scientific research includes seismic near-field studies of underwater explosions (1962-63); short-distance seismic refraction studies of near-surface structures (1961-63); deep seismic crustal studies in Central Europe e.g. central and southern West Germany, central Alps, northern Italy (1962-67); investigation of absorption in the seismic near-field of small explosions in fluid filled boreholes (1964); focal mechanism and source dynamics of deep earthquakes (1964-68); aftershocks from nuclear underground explosions (1969); three-dimensional seismic ray tracing and travel-time studies in a laterally heterogeneous earth (1969-70); microearthquakes and seismic ground noise in geothermal areas of El Salvador, Central America (1969-70); seismic travel-time residuals from the Longshot nuclear explosion (1970); microearthquakes in Central Aleutian Islands, Alaska (1970); seismotectonic studies and installation of a seismic network in the Eastern Aleutian Islands (1971); upper mantle structure beneath the Aleutian arc (1972); seismic risk study, Tarbela Dam, Pakistan (1973); tectonics of the Himalayas in northern Pakistan (1974/75).

Employment:

Present Status: Senior Research Associate in Seismology, Lamont-Doherty Geological Observatory, Columbia University since October 1968.

Previous positions: Research Associate in Geophysics, Institute of Meteorology and Geophysics, University of Frankfurt, West Germany. October 1964 - September 1968.

British Petroleum, Research Centre, Exploration Division, Geophysical Section, in Sunbury-on-thames, England; research in absorption of seismic energy in the near field of explosions with Dr. P. N. S. O'Brien, January - May 1964.

Prakla G.M.B.H., Hanover, West Germany, seismic prospecting in the Bavarian molasse, summer 1957.

Professional Societies:

American Geophysical Union
Seismological Society of America
German Geophysical Society
European Seismological Commission

Scientific Advisory Boards:

Digital Data Processing Group
Physics of the Solid Earth Committee (FKPE)
of the German Science Foundation (DFG)

Docket Nos. 50-3
50-247
50-286

NOTICE OF A PUBLIC HEARING ON SEISMIC ISSUES,
AND ORDER IN CONNECTION THEREWITH

By memorandum and order dated August 4, 1975, the Nuclear Regulatory Commission granted the petition of the New York State Atomic Energy Council (Council) for a public hearing to determine whether the geological and seismological analyses which have been carried out for Units 1, 2, and 3 of the Indian Point Nuclear Generating Station fulfill the Commission's regulatory requirements and, if not, what regulatory action is needed to bring the Indian Point units into compliance with those requirements. The Commission further provided that related issues which had been independently raised by Citizens Committee for Protection of the Environment (CCPE) could also be considered at the hearing.

H1

In authorizing the public hearing, the Commission designated the Appeal Board currently established for the Indian Point 3 operating-license proceeding to conduct this seismic proceeding. That Board is comprised of the following members: John B. Farmakides, Chairman; Dr. John H. Buck; and Dr. Lawrence R. Quarles.

The Commission's August 4, 1975 memorandum and order, and other documents related to this matter, are available and may be inspected at the Hendrick Hudson Free Library, 31 Albany Post Road, Montrose, New York; and at the Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C. 20555.

Consonant with the Commission's action, the Council and CCPE, as well as Consolidated Edison Company of New York, Inc. and the Nuclear Regulatory Commission staff are hereby admitted as parties to this seismic proceeding. Other parties to the Indian Point 3 operating-license proceeding who wish to participate in the seismic proceeding should notify this Board by Friday, August 29, 1975. Any other person whose interest may be affected by this proceeding may file a petition for leave to intervene in accordance with the requirements of 10 CFR § 2.714, provided that such petition is filed not later than Friday, August 29, 1975. Petitions for leave to intervene must be filed under oath or affirmation and shall set forth the

interest of the petitioner in the proceeding, how that interest may be affected by the results of the proceeding, and the petitioner's contentions. A petition must be accompanied by a supporting affidavit which sets forth with particularity the facts on which petitioner relies as to both his or her interest and contentions. Petitions setting forth contentions relating only to matters outside the scope of the Commission's August 4, 1975 memorandum and order will be denied. A petition for leave to intervene which is not timely filed will not be entertained absent a determination by the Board that the petitioner, in addition to the matters specified in 10 CFR § 2.714(d), has made a substantial showing of good cause for failure to file on time. The reasons for the tardiness in filing a petition, as well as the factors specified in 10 CFR § 2.714(a)(1) - (4), shall be considered in making a determination whether there has been a substantial showing of good cause by the petitioner.

Any person who wishes to make an oral or written statement in this proceeding setting forth his position on the issues herein involved, but who does not wish to file a petition for leave to intervene, may request permission to make a limited appearance pursuant to the provisions of 10 CFR § 2.715 of the Commission's Rules of Practice. Persons desiring to make such a limited

appearance are requested so to advise this Board not later than Friday, August 29, 1975. A person permitted to make a limited appearance does not become a party, but may state his position and raise questions which he would like to have answered to the extent they are relevant to the matter at hand. A member of the public does not have the right to participate unless he has been granted the right to intervene as a party, or the right of limited appearance.

The Commission's August 4, 1975 memorandum and order specifically authorized the Indian Point 3 Appeal Board to frame the issues to be heard in this seismic proceeding. The Commission also directed it to convene the hearing with expedition. Accordingly, notice is hereby given that a prehearing conference is contemplated for September 25, 1975, at a time and place to be hereafter announced. At this conference, the Board will consider, inter alia, any new intervention petitions and responses thereto, the framing of issues, and other procedural matters.

Papers required to be filed in this proceeding may be filed by mail or telegram addressed to the Secretary of the Commission, United States Nuclear Regulatory Commission, Washington, D.C. 20555, ATTENTION: Docketing & Service Section, or may be filed by delivery to the

Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C. 20555. Copies of papers filed in this proceeding should also be sent to members of the designated Appeal Board; and to the Chief Hearing Counsel, Office of the Executive Legal Director, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555.

Pending further order of the Appeal Board, parties are required to file, pursuant to the provisions of 10 CFR § 2.708, an original and twenty (20) conformed copies of each such paper with the Commission.

It is so ORDERED.

FOR THE ATOMIC SAFETY AND LICENSING
APPEAL BOARD

Margaret E. Du Flo
Margaret E. Du Flo

Margaret E. Du Flo
Margaret E. Du Flo
Secretary to the
Appeal Board

Dated at Bethesda, Maryland
this 5th day of August 1975.

This action was taken, in the absence of a quorum, by the Panel Chairman under the authority of 10 CFR § 2.787(b)(2). Dr. Buck and Dr. Quarles wish to note their concurrence in the terms of the foregoing notice and order.
