Docket No. 50-286

Gentlemen:

This refers to the inspection conducted by Mr. Heishman of this office on January 27 and 28, 1972 of construction activities authorized by AEC Construction Permit No. CPPR-62, and to the discussions of our findings held by Mr. Heishman with Messrs. Kohler, Matra, Dadson, and other members of your staff at the conclusion of the inspection.

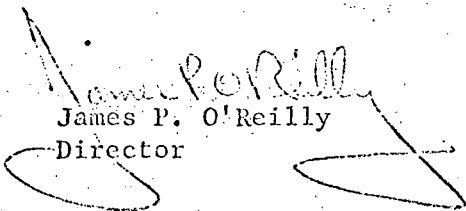

Areas examined during this inspection included the reactor coolant piping; steam generator cladding repair procedures; quality documentation relative to the reactor vessel; previously identified unresolved inspection items; and the status of construction. Within these areas, the inspection consisted of selective examinations of representative records, interviews with plant personnel, and observations by our inspector.

During this inspection, it was found that one of your activities appeared to be in noncompliance with Appendix B, 10 CFR 50. The item and reference to the pertinent requirement are listed in the enclosure to this letter. Please provide us within 30 days, in writing, with your comments concerning this item, any steps that have been or will be taken to correct it, any steps that have been or will be taken to prevent recurrence, and the date all corrective actions or preventive measures were or will be completed.
