SUBJECT: Indian Point 3 Nuclear Power Plant
Docket No. 50-286
Inspection 50-286/80-20 (Supplemental Response)

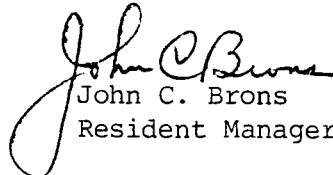

Dear Sir:

In our response of February 13, 1981, it was stated that a new administrative procedure would be expected to be issued during May, 1981 to provide the controls necessary to prevent a recurrence of an item similar to the one identified in the inspection.

However, it was determined that a revision to the existing administrative procedure, (AP-9) entitled "Work Requests", was appropriate at this time to satisfy the concerns of this inspection.

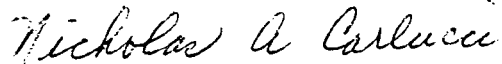

This revision to the administrative procedure was reviewed and approved by the Plant Operating Review Committee on June 2, 1981.

Very truly yours,

John C. Brons
