Chuck,

Attached are industry comments on FAQ 51 interim position. The first file provides comments on your draft. The second file provide a markup of the draft that incorporates our comments.

The NRC response to this FAQ involved a substantial rewrite of the industry proposed response. The significance of the changes and the lack of any discussion on the basis for the changes hampered our review. The process would be improved in the future if the NRC changes included some discussion on why the changes are believed to be needed.

I hope this is helpful. Thank you for your patience,

John

Steve,

I have in my notes from the December FAQ public meeting that the Task Force had no comments on the FAQ 51 NRC draft interim position. Could you confirm that for me? I would like to get the final out soon.

Thanks,

Chuck
