Docket No. 50-286

MAY 9 1973

Mr. Gordon Beckett
 U.S. Fish and Wildlife Service
 P. O. Box J
 Cornwall, New York 12518

Dear Mr. Beckett:

We appreciated the opportunity to discuss with you the organization and function of the Hudson River Policy Committee and the Technical Committee during our site visit at Indian Point Nuclear Generating Station on February 21 and 22, 1973.

At that time you reported that the Technical Committee meets about once a month and at each meeting a specific topic or topics of technical nature pertaining to the environmental surveillance studies being done on the Hudson River are discussed. Would it be possible to obtain information on the topics to be covered for the next several meetings, the dates and locations of the meetings? Would it be possible to attend such a meeting?

If available, would it be possible to obtain any minutes of previous meetings or monthly reports prepared by Texas Instrument Company for monitoring and studying of aquatic biota in the Hudson River?

Again, thank you for your assistance.

Sincerely,

M. J. Oestmann
