UNITED STATES
ATOMIC ENERGY COMMISSION
WASHINGTON, D.C. 20545

Docket No. 50-286

APR 19 1971

ENVIRON, FILE (NEPA)

Mr. William J. Cahill, Jr.
Vice President for Engineering
Consolidated Edison Company of
New York, Inc.
4 Irving Place
New York, New York 10003

Dear Mr. Cahill:

On December 24, 1970, we forwarded to you a copy of the Commission's December 4, 1970 Statement of General Policy for implementation of the National Environmental Policy Act in its licensing proceedings (35 FR 18469). In regard to facilities for which construction permits previously have been issued without detailed statements, the revised Appendix D to 10 CFR Part 50 requires, among other things, that holders of construction permits must, as soon as practicable, file an Environmental Report with the AEC discussing the environmental considerations enumerated in paragraph 1 of the revised regulation. As an aid in preparing Environmental Reports, we forwarded to you on March 12, 1971, a copy of a draft "Guide to the Preparation of Environmental Reports for Nuclear Power Plants."

We have not received your Environmental Report for the Indian Point Unit No. 3 and would appreciate knowing when you intend to submit the required report.

Sincerely,

Harold L. Price
Director of Regulation
