

South Texas Project Phase 2 SER Chapter Day for Chapter 4

December 2, 2009

Chapter Day is a streamlined approach for the concurrence process which allows all parties to review and concur on the SER chapter at the same time. Below is a list of all participants in attendance during chapter day for Chapter 4. The printed name of each participant in the attendance column verifies their presence at this meeting. Adjacent to their printed name is their initials, which indicates their concurrence on the final product (South Texas Project Phase 2 SER for Chapter 4) that will be produced as a result of this meeting. This document will serve as the concurrence page and will be packaged with the Chapter 4 SER for Phase 2 accordingly. (Note: The concurrence policy still applies).
