**BELL BEND NUCLEAR POWER PLANT
RESPONSE TO FEMA REQUEST FOR
ADDITIONAL INFORMATION – STATUS UPDATE
BNP-2010-021 Docket No. 52-039**

- References: 1) Letter, V.E. Quinn (FEMA) to R. R. Sgarro (PPL), "Federal Emergency Management Agency's (FEMA) Interim Findings Report (IFR) for Open Items (OIs) for the Bell Bend Nuclear Power Plant (BBNPP) Combined License (COL) Application", dated December 10, 2009.
- 2) Letter, R. R. Sgarro (PPL) to V. E. Quinn (FEMA), "Response to FEMA Request for Additional Information – Schedule", (BNP-2009-425), dated January 7, 2010.

PPL provided the resolution plan for the items identified in the FEMA Interim Findings Report (IFR) for Open Items for the Bell Bend Nuclear Power Plant (BBNPP) in Reference 2. The purpose of this letter is to update you on the status of the interim findings related to the Commonwealth of Pennsylvania Nuclear/Radiological Plan, Annex E, Nuclear Power Plant Incidents, which we targeted for completion by January 31, 2010. Our response to the remainder of the findings remains on track for March 31, 2010.

The Commonwealth Emergency Operations Plan has been revised to comply with the National Response Framework, and the former Annex E is now Annex A. PPL has worked with PEMA to respond to the relevant interim findings, and a revised Annex A has been drafted that addresses each of those findings.

The revised Annex A is currently being reviewed by PEMA management. Upon approval by PEMA of the revised Annex A, PPL will forward it to you, with appropriate information indicating how each of the findings was resolved.
