Re: Indian Point Station, Unit No. 3  
Dkt. No. 50-286, OL DPR-64

Dear Dr. Geckler:

We have received your September 14, 1977 summary of the September 12, 1977 meeting to discuss the Staff's Draft Environmental Statement in connection with the designation of a preferred alternative closed-cycle cooling system for the Indian Point Unit 3 facility.

As counsel for the Power Authority of the State of New York, we wish to note, with respect to item (c) in paragraph 2 of that summary, that there was no discussion of a consolidated evaluation of the need for closed-cycle cooling at this meeting. We understand that the Staff may be considering such a possibility, but the minutes are mistaken to the extent they convey the impression the subject was discussed.

Very truly yours,

LeBOEUF, LAMB, LEIBY & MacRAE
