RE: NRC Material License No. 21-32687-01

To whom it may concern:

Surveying Solutions, Inc. is starting to expand our density testing department and anticipate a significant amount of work this summer. In anticipation of that work, we are requesting an amendment to our current NRC License so that we can own and possess up to five (5) Model 3400 Troxler Electronic Laboratories Gauges. The current license only allows for 2 sources and we feel this may be reduce our ability to expand our operations.

If you have any questions, please feel free to give me a call at (989) 846-6601.

Sincerely,

SURVEYING SOLUTIONS, INC.
