Docket No. 50-286

January 6, 1975

TO: Mary Jane Oestmann

FROM: Sigurd W. Christensen

SUBJECT: Request from you for me to supply material for the Indian Point 3 Docket File concerning the material referred to in the letter, dated November 11, 1974, from Thomas C. Cannon, Texas Instruments, to Sigurd W. Christensen, ORNL.

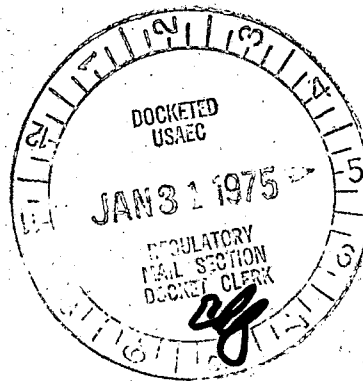

Although the material I received is all in some sense relevant to telephone discussions that I had with Dale Caldwell and Thomas Cannon, both of Texas Instruments, I do not recall specifically requesting all of this material.

There are seven items listed in Cannon's letter. The letter itself, along with items 4 and 7, were received by me on November 14, 1974. Item 4 consists of several hundred pages of computer printout ("Ichthyoplankton 1973 all species raw data"), and I have not attempted to copy this material. Item 7 is apparently Exhibit ___ (McF/C-5R) in the Cornwall proceedings. Immediately following this memo, I am enclosing a copy of Cannon's letter. Immediately following this are copies of the first two pages of item 7.

The remaining items (Nos. 1-3 and 5-6) apparently refer to material received by me on November 6, 1974. Copies of the face of the envelope in which the material was mailed and all contents of the envelope are enclosed following the material referred to above. Much of this material will be meaningless if the order of the pages (which are not numbered) is not preserved.

Dear Sig;

Enclosed is the information you requested of Texas Instruments concerning documentation and data provided to all parties in the Cornwall F.P.C. hearings from the 1973 Longitudinal Ichthyoplankton survey including the following:

1. SAMPLE VOLUME DOCUMENTATION
2. RIVER POST-STRATIFICATION
3. RIVER VOLUME CALCULATIONS
4. ICHTHYOPLANKTON 1973 ALL SPECIES RAW DATA
5. EMPIRICAL MODEL STANDING CROP OUT PUT
6. MORTALITY ESTIMATES
7. REVISED CORNWALL IMPACT REPORT

Sincerely,

Thomas C. Cannon
Technical Director
Texas Instruments Incorporated
