Subject: Request for Additional Information regarding License Amendment, dtd Dec 9, 2009. Mail Control # 144337

Dear Mr. Casey:

Per our conversation, below is a copy of our telephone conversations that were held on January 27 and 28, 2010.

We discussed the following additional information required to complete your licensing action:

1. Form 313, Item 7 – please submit RSO information required in 8.7.1 NUREG-1556, Vol. 18. Licensee will review NUREG provide additional information, such as organizational chart and either specific training and experience of RSO (including dates of training in radiation safety) or alternative information demonstrating that the proposed RSO is qualified by training and experience. Licensee will be able to provide by February 5, 2010.
2. Form 313, Item 7 – please submit authorized user information required in 8.7.2 NUREG-1556, Vol. 18. Licensee will be able to provide by February 5, 2010.
3. Resumes – please do not submit privacy information such as home address, home phone number, social security number, etc, in future amendments and renewal applications. Follow NUREG guidance.

We also discussed the following regarding the license, no immediate action is required.

1. The licensee stated that they are aware that the license is due to expire on April 30, 2010. I reminded them that an entire package submittal including an updated description of the program, according to NUGREG-1556, Vol 18, and updated financial assurance documents will be required in the renewal application.
2. Form 313 Item 2 – typo regarding the zip code. Licensee noted typo and will correct for renewal.
3. The term transplutonics, which is not a radionuclide, will need to be addressed during the renewal.
4. In the enclosure to the letter – only one copy to Region 1 is needed, please follow NUREG guidance.

Please contact me if you have any questions. Thank you in advance for your prompt attention to this matter.
