U.S. Nuclear Regulatory Commission  
11555 Rockville Pike  
Rockville, MD 20852-2738

Attention: Document Control Desk

Subject: Request for Timely Renewal of U.S. Nuclear Regulatory Commission (NRC)  
Certificate of Compliance (CoC) No. 9225  
Docket 71-9225

Reference: USNRC CoC No. 9225, Revision 52, Model No. NAC-LWT Package,  
Dated December 17, 2009

The above referenced CoC has an expiration date of February 28, 2010. NAC International (NAC) hereby requests the timely renewal of CoC No. 9225 for the Model No. NAC-LWT Package [Package Identification Number USA/9225/B(U)F-96] in accordance with the provisions of 10 CFR 71.38.

Enclosed with this request for timely renewal are two (2) copies of the NAC-LWT Safety Analysis Report (SAR), Revision 40, which incorporates supplements dated August 12 and 27, November 18, December 4 and 10, 2008, March 23, two supplements dated July 30, November 3, and December 7, 2009, listed in the USNRC CoC 9225. All supplements incorporated into Revision 40 of the NAC-LWT SAR have previously been approved by the NRC. No other changes have been made to the SAR text. As a consolidated SAR, Revision 40 does not contain any revision bars and all pages of the document are identified as Revision 40. A List of Effective Pages is provided for completeness. NAC has reviewed the NAC-LWT SAR to ensure that it is complete and current, specifically the sections on operating procedures, acceptance tests and maintenance programs.

NAC is currently using the NAC-LWT packaging in ongoing Foreign Research Reactor (FRR) fuel shipments within the U.S. Department of Energy National Nuclear Security Administration FRR fuel acceptance program. These shipments will not be completed prior to the expiration of CoC 9225. While in accordance with 10 CFR 71.38 (b), the current CoC is not deemed to have expired as this request for timely renewal is being submitted to the NRC in not less than 30 days prior to the expiration of the current CoC, upon issuance of a revised CoC by the NRC, US and foreign competent authority certificates will have to be obtained immediately to support these ongoing shipments. Therefore, NAC hereby requests issuance of the revised CoC by February 5, 2010.
