SUBJECT: ORDER TO AUTHORIZE DECOMMISSIONING AND AMENDMENT NO. 45 TO
LICENSE NO. DPR-5 FOR INDIAN POINT UNIT NO. 1 (TAC NO. M59664)

Dear Mr. Bram:

The Commission has issued the enclosed order to authorize decommissioning of Indian Point Unit No. 1. Also enclosed is Amendment No. 45 to License No. DPR-5, which revises the license to possession-only status, revises the Technical Specifications (TSs) and renews the license until October 14, 2006. The order and amendment respond to your application of October 17, 1980, as revised October 13, 1981; July 31, 1986; March 28, 1988; August 10, 1989; March 28 and July 17, 1990; February 5, April 2, July 31, September 20, and October 12, 1993; May 13 and August 11, 1994 and July 19, 1995. The order has been forwarded to the Office of the Federal Register for publication.

As required by 10 CFR 50.82(d), and the enclosed order authorizing decommissioning, Con Edison must submit a detailed dismantling plan for NRC review and approval prior to major dismantlement activities at IP-1.

A Notice of Consideration of Issuance of Amendment to License and Opportunity for Prior Hearing related to the requested action was published in the FEDERAL REGISTER on December 31, 1985, (50 FR 53407). No request for a hearing or petition for leave to intervene was filed following notice of the proposed action.

The Notice stated a license renewal date of October 14, 2006 to coincide with the planned permanent shutdown of Indian Point Unit 2 (IP-2). Subsequent to the December 31, 1985 notice, the license for IP-2 was extended to September 28, 2013 and you informed us, in your letter dated March 28, 1988, of your intention to delay dismantlement of IP-1 to after that date. The enclosed safety evaluation and environmental assessment of your decommissioning plan are consistent with the 2013 date. However, we have renewed License No. DPR-5 to October 14, 2006, to be consistent with the license renewal application as noticed in the December 31, 1985 FEDERAL REGISTER Notice in order to put new TSs for the current shutdown condition in place.
