SUMMARY OF THE MEETING WITH SHAW AREVA MOX SERVICES RELATED TO THE
DRAFT DEVELOPMENT OF THE REVISION TO THE QUALITY ASSURANCE PLAN FOR THE
MIXED OXIDE FUEL FABRICATION FACILITY

DATE January 19, 2009

PLACE Rockville, Maryland

ATTENDEES See Enclosure 2

PURPOSE

The purpose of the public meeting was for Shaw AREVA MOX Services (MOX Services or the applicant) personnel to present a summary of the revised quality assurance plan they plan on submitting to the NRC for the Mixed Oxide Fuel Fabrication Facility (MFFF).

DISCUSSION

The purpose of the meeting was for MOX Services personnel to make a presentation to NRC regarding the planned revision of the quality assurance plan.

The MFFF QA plan is being revised to address startup testing and operations. The plan will incorporate any identified changes using NUREG-0800 as guidance. The document will also integrate the management measures requirements that are currently contained in Chapter 15 of the License Application.

The revised plan will include organization, training and qualification, configuration management, instructions, procedures, drawings and maintenance.

The applicant will submit a draft of the plan to the NRC in early February. The staff will meet with MOX Services to discuss the draft document prior to it being submitted officially for review. The meeting is planned to be held in mid-February.

No regulatory decisions were made at the meeting.

The meeting was then adjourned.

January 19, 2010, QA Plan Discussion Meeting Attendees

David Tiktinsky	U.S. Nuclear Regulatory Commission (NRC)
Kevin Morrissey	NRC
Damaris Arroyo	NRC
Sabrina Cleavenger	NRC
Margie Kotzalas	NRC
Eric Oesterle	NRC
