ATTN: Mr. Steven A. Varga, Project Director
PWR Project Directorate No. 3
Division of PWR Licensing-A

Dear Mr. Varga:

Your letter dated October 11, 1985 requested additional information concerning our pending license amendment on hydraulic snubbers. Attachment A to this letter contains revised technical specification pages as requested. We request that the license amendment, once issued, be effective after the Cycle 7/8 refueling outage due to our inability to perform such an extensive program at this late date.

If you have any further questions on this matter, do not hesitate to call.

Very truly yours,
