PWR Project Directorate #3
Division of PWR Licensing - A

Dear Mr. Varga:

Consolidated Edison Company of New York, Inc. transmits herewith three(3) signed originals and forty(40) copies of a document entitled "Application for Amendment to Operating License," sworn to on December 27, 1985. This application requests an amendment to Facility Operating License No. DPR-26, for Indian Point Unit No. 2, to amend the provisions of the license bearing upon duration of operations so that the date upon which the unit operating license would expire would be 40 years from the date of issuance, September 28, 2013. This change is consistent with action taken by the Commission in 1985 on a similar Baltimore Gas & Electric application for their Calvert Cliffs units, as well as current Commission licensing practices for new plants. The text of the requested Operating License changes and a Safety Assessment are attached to the Application.

The appropriate filing fee in accordance with 10CFR 170.21 is enclosed, along with an Affidavit of Service attesting to state and local notification as required by 10CFR 50.91.
