ATTN: Mrs. Marylee M. Slosson, Project Manager
PWR Project Directorate #3
Division of PWR Licensing - A

Dear Mrs. Slosson:

Attached are replacement pages which correct typographical and administrative errors appearing in both our proposed technical specification application dated April 10, 1985, and in the recently issued Amendment No. 109 to Facility Operating License No. DPR-26. One of the errors identified was that Amendment No. 109 had been issued without incorporating the change made by Amendment No. 101.

Should you have any questions, please contact us.

Very truly yours,

attach.
