Re: Indian Point Unit No. 2
Docket No. 50-247

U.S. Nuclear Regulatory Commission
ATTN: Document Control Desk
Washington, DC 20555

Dear Sir:

Consolidated Edison Company of New York, Inc. transmits herewith one (1) signed original and two (2) copies of the document entitled "Application for Amendment to Operating License" sworn to on June 12, 1987. This application requests an amendment to the Indian Point Unit No. 2 Technical Specifications which would revise the operability requirements of the containment fan cooler units, delete the requirements of their HEPA filters, charcoal adsorbers and associated fire protection and detection equipment, and revise the amount of time one containment spray pump may be inoperable. The text of the requested Technical Specifications changes and a Safety Assessment are attached to the Application.

The appropriate filing fee, in accordance with 10 CFR 170.12 is enclosed.

We request your expeditious approval of this proposed amendment. This will enable us to enhance our preparatory activities for the planned fall Refueling Outage and to optimize resource availability during that outage.

Very truly yours,

22.190.5.13.1

cc: Ms. Marylee M. Slosson
Project Manager
Division of Reactor Projects - I/II
