SUBJECT: Withdrawal of License Amendment Request Relative
to Hurricane Alert

By letter dated July 24, 1986, Consolidated Edison submitted to NRC an application for amendment to the Indian Point Unit No. 2 operating license to revise the Technical Specifications relative to hurricane alert (Sections 3.14 and 4.17). Subsequent to our discussions with NRC staff, including a meeting on March 27, 1987, we have reconsidered this request and hereby withdraw our July 24, 1986 application.

Should the staff have any further questions on this matter, do not hesitate to contact us.

Very truly yours,
