SUBJECT: Proposed Amendment to Technical Specification  
Regarding Hurricane Conditions

Transmitted herewith are the original and two copies of an "Application for Amendment to Operating License", sworn to on January 30, 1992. This Application requests an amendment to the Indian Point Unit No. 2 Technical Specifications.

The proposed Technical Specification changes, contained in Attachment A to this Application, clarify the limiting conditions for operation (LCOs) and monitoring frequency for a severe hurricane condition in the vicinity of Indian Point Unit No. 2. A Safety Assessment is presented in Attachment B to the Application and provides the No Significant Hazards analysis for the proposed amendment.

In accordance with 10 CFR 50.91, a copy of this application and the associated attachments are being submitted to the designated New York State Official. Should you or your staff have any questions regarding this matter, please contact Mr. Charles W. Jackson, Manager, Nuclear Safety and Licensing.

Very truly yours,
