Re: Indian Point Unit No. 2
Docket No. 50-247

Director of Nuclear Reactor Regulation
ATTN: Mr. Steven A. Varga, Chief
Operating Reactors Branch No. 1
Division of Licensing
U. S. Nuclear Regulatory Commission
Washington, D. C. 20555

Dear Mr. Varga:

By letter dated August 19, 1980, you requested additional information regarding our planned transition to LOPAR fuel at Indian Point Unit No. 2. The requested information is provided herewith as an attachment to this letter.

As this submittal contains information proprietary to Westinghouse Electric Corporation, it is supported by previously submitted affidavits signed by Westinghouse, the owner of the information. The affidavits set forth the basis on which the information may be withheld from public disclosure by the Commission and address with specificity the considerations listed in paragraph (b) (4) of Section 2.790 of the Commission's regulations.

Accordingly, it is respectfully requested that the information which is proprietary to Westinghouse be withheld from public disclosure in accordance with 10 CFR Section 2.790 of the Commission's regulations. In support of this request, forwarded herewith is Westinghouse letter NS-RAW-264 from Mr. Robert A. Wiesemann to Mr. Harold R. Denton dated September 3, 1980. Note that this present Consolidated Edison submittal is the reference document identified in the Westinghouse NS-RAW-264 letter.

Mr. Harold R. Denton, Director
Office of Nuclear Reactor Regulation
U. S. Nuclear Regulatory Commission
Washington, D. C. 20555

SUBJECT: Docket No. 50-247, Indian Point Station Unit 2, LOPAR Transition Reload

REF: Consolidated Edison Company Application for Withholding, Zarakas to Denton, September 1980

Dear Mr. Denton:

The proprietary material for which withholding is being requested by Consolidated Edison Company is of the same technical type as that proprietary material previously submitted in connection with NRC Staff reload reviews. A previous application for withholding, AW-76-31, was accompanied by a non-proprietary affidavit signed by the owner of the proprietary information, Westinghouse Electric Corporation. The subject proprietary material is being submitted in support of the LOPAR transition reload review associated with Consolidated Edison Company Indian Point Nuclear Plant Unit 2.

On March 2, 1977, Westinghouse submitted a proprietary affidavit to supplement the non-proprietary affidavit accompanying application for withholding AW-76-31. Because the reload review material associated with Unit 2 is of the same technical type as that associated with the previous reload review, the proprietary affidavit submitted to supplement the previous justification is equally applicable to this material.

Accordingly, this letter authorizes the utilization of the previously furnished affidavits in support of the LOPAR transition reload review associated with Consolidated Edison Company Indian Point Nuclear Plant, Unit 2.

Mr. H. R. Denton

NS-RAW-264

Correspondence with respect to the proprietary aspects of the application for withholding or the Westinghouse affidavits should reference CAW-80-50 and should be addressed to the undersigned.

Very truly yours,

Robert A. Wiesemann, Manager
Regulatory & Legislative Affairs
