ATTN: Mr. Steven A. Varga, Chief
Operating Reactors Branch No. 1

Dear Mr. Varga:

By letter dated August 29, 1980, we provided the status of our valve qualification program for the containment purge and pressure relief isolation valves requested by the Commission's September 27, 1979 letter. We now anticipate that a response to this issue, along with the status of our evaluation considering the issues contained in Standard Review Plan 6.2.4 Rev. 1 and the associated Branch Technical Position CSB 6-4 will be provided by April 15, 1981.

Should you or your staff have any additional questions, please contact us.

Very truly yours,

John D. O'Toole
