Re: Indian Point Unit No. 2
Docket No. 50-247

Director of Nuclear Reactor Regulation
U. S. Nuclear Regulatory Commission
Washington, D. C. 20555

ATTN: Mr. Darrell G. Eisenhut, Director
Division of Licensing

Dear Mr. Eisenhut:

This is in response to the August 7, 1981 Generic Letter No. 81-29 regarding Simulator Examinations.

Con Edison has an Indian Point Unit No. 2 plant-specific simulator on-site which is used for the simulator portion of the licensing examination. The simulator examination and the balance of the examination are scheduled one day apart.

There are no examinations scheduled for the remainder of 1981. Written and simulator examinations for eight candidates for reactor operator licenses are scheduled for mid-February, 1982. Written and simulator examinations for six candidates for senior reactor operator licenses are scheduled for early October, 1982.

Should you or your staff have any questions, please contact us.

Very truly yours,

A handwritten signature in cursive that reads "John D. O'Toole".
