ATTN: Mr. Steven A. Varga, Chief  
Operating Reactors Branch #1  
Division of Licensing

Dear Mr. Varga:

This in response to your letter dated October 9, 1981 which requested that Con Edison commit to certain criteria for future low pressure turbine disc inspection.

Con Edison is currently working with Westinghouse to develop the site specific requirements consistent with the inspection criteria outlined in your letter. It is expected that our response will be forthcoming on or about January 8, 1982, after completion and evaluation of the results.

Very truly yours,
