Operating Reactors Branch No. 1  
Division of Licensing

Dear Mr. Varga:

This letter is in response to your letter of December 11, 1981, regarding emergency procedures and training for station blackout events. We have reviewed the results of the Westinghouse Owner's Group generic study and have identified the need for additional procedural changes. A new procedure has been drafted, is currently under review, and will be implemented on or before January 31, 1982.

Should you or your staff have any questions, please contact us.

Very truly yours,

*John D. O'Toole*
