Dear Mr. Eisenhut:

The Attachment to this letter contains Con Edison's draft program plan for the supplemental Detailed Control Room Design Review (DCRDR) to be conducted at Indian Point Unit 2 (IP-2). The draft program plan is being submitted in accordance with our response to Supplement 1 to NUREG-0737. We request your staff's review and approval of the draft program plan.

To facilitate this requested action we propose that a meeting be held at IP-2 site in the near future to discuss your comments. We will contact our NRC Project Manager to set up a mutually acceptable date and time for the proposed meeting.

If you or your staff have any questions on this matter, please do not hesitate to call us.

Very truly yours,
