ATTN: Mr. Steven A. Varga, Chief
Operating Reactors Branch No. 1
Division of Licensing

Dear Mr. Varga:

In a March 8, 1984 telephone conversation with your staff, it was agreed that Con Edison would provide a schedule for response to your December 15, 1983 request for additional information regarding performance testing of Relief and Safety Valves (Item II.D.1 of NUREG-0737). Accordingly, we are planning to submit the requested information by June 15, 1984.

As also agreed during the March 8, 1984 conversation, a meeting with your staff to discuss our response, as suggested by your December 15, 1983 letter, is unnecessary at this time; however, following your review of our June 15, 1984 response we would be pleased to meet with your staff, if they so require.

Very truly yours,
