Docket No. 50-247

Mr. Steven A. Varga
Operating Reactors Branch No. 1
Division of Licensing, NRR
U. S. Nuclear Regulatory Commission

Dear Mr. Varga:

This is in response to your letter of November 26, 1984 concerning a proposed revision to our snubber Technical Specification. In your letter you have identified differences between our proposed Technical Specifications and the NRC model Standard Technical Specifications. We plan to submit by June, 1985 a response that justifies these differences or, if necessary, a revised Technical Specification that resolves these differences.

If you have any further questions on this matter, do not hesitate to call.

Very truly yours,
