Subject: ATWS Mitigation System Actuation  
Circuitry ("AMSAC")

By letter dated September 16, 1988, we submitted our proposed AMSAC design. In that letter we committed to provide confirmation that the Struthers-Dunn relays used in this design meet the NRC's September 19, 1986 AMSAC SER Appendix A Criteria. The purpose of this letter is to inform the NRC that we have reviewed the subject relays and have concluded that they do meet the criteria.

Should you have any questions regarding this matter, please contact Mr. Jude G. Del Percio, Manager, Regulatory Affairs.

Very truly yours,
