SUBJECT: Emergency Action Levels

This is to clarify our June 13, 1989 letter regarding the same subject. Our review will address NUREG-0654 and events in Revision 4 of our Emergency Action Levels. Nevertheless, the NUREG-0654 Appendix 1 examples cited by your inspector (which were listed in our previous letter) will be fully covered in the revisions which will result from our review. As noted in our June 9, 1989 exit interview following the recent inspection, as well as in your January 31, 1989 letter, literal adherence to the guidance in NUREG-0654 is not required.

This review and revision, together with all associated training, will be completed within 60 days of the date of this letter.

Very truly yours,
